

LAND 290C : Senior Project/Internship

As the capstone course of the Landscape and Environmental Design curriculum, this course will require the student to demonstrate integration and application of the knowledge and skills from all courses in the program. This may be achieved either through a comprehensive senior design project developed by the student under the guidance of a faculty member or through participation in a field internship with an approved industry partner. Students will be required to provide regular and ongoing documentation of the learning experience to ensure that all course and program goals are met.

Credits 4

Lab/Practicum/Clinical Hours 12

Lecture Hours 0
